For Attorneys—
A *"Client's Account"*

Funds of Attorneys and their Clients should not be mingled, according to regulations of the State Bar Association. Every Attorney in California should have a separate Client's Account with a responsible Bank in which he will keep funds other than his own.

Bank of Italy offers to California Attorneys a "Clients' Account" that will be uniform in its character throughout the State.

It is the earnest desire of the executives of this institution to work in close harmony with the great body of California Attorneys. It is a privilege in this instance to offer facilities which insure the development of a policy in keeping with the high standards of the State Bar Association.

Funds that are to be retained for an extended period of time, may be deposited in a Savings Account.

Any branch of the Bank of Italy will gladly open a Clients' Account for you.

CHOOSING A "CORPORATE" EXECUTOR OR TRUSTEE

In the selection, for a client, of a corporate Executor or Trustee a conscientious attorney will consider the general reputation of the proposed trustee both as to safety, and as to net return secured for trusts. And also as to its general attitude toward beneficiaries, in kindliness and consideration.

An attorney is also entitled to know that such a trustee or executor will not ignore his own just claims to carry on the necessary legal work connected with the estate.

In all four of these matters, the general practice and reputation of Security Bank will be found satisfactory.
